

## \* *Intuitive*

I noticed in comparison to my peers that I was using a 6th sense to navigate the world at the age of 12. I also accessed clarity of my ultimate purpose; realizing that all that I would experience on my way to fully embodying my highest self, would all just be temporary versions of myself seeking to return my original self... my authentic self. As I explored different lifestyles for curiosity, experience, and perspective, I mostly to discovered who I was not; an important process to confirm and trust who we are. I began tapping into and harnessing past life wisdom and claircognizance. I led extensive research on psychic abilities, astrological planetary placement (strong Pisces influences in my birth chart that indicate intuitive ability), and a series of personal experimental case studies. I guided myself through my most transformational awakening processes; learning and retaining information for my purpose as a teacher.
